THROUGH THE STATE.

Matters of Interest Gleaned from West Virginia Exchanges.

Prof. James S. Stewart, late of the state university, has succeeded the late Dr. W. R. White as superintendent of the public schools at Fairmont.

Military training is to be instituted at Marshall College, in Huntington, by the principal, Prof. Thomas H. Hodges, who is an eathusiastic military man A Morgan county bunter recently killed two wildcats on Cacapon moun-tains, and a Tucker county man, during a hunt of two days, captured seven

ground hogs and ten coons. The Pocahontas Times says that there are negroes in that county who believe that there is a bill before Congress to deprive them of their suffrage, and that

the newspapers are suppressing it. Frank Stroman, eldest son of Mr. W. S. Stroman, of Union, Monroe county was fatally injured by jumping from a west-bound freight train about two miles west of Alderson, November 11, about 8:30 o'clock.

A fire at Meadow Creek, Summers county, on Friday night, November 3, destroyed the stores of Quinn & Quinn and E. B. Beasley, and the postoffice. The loss of Quinn & Quinn is \$4,500, half covered by insurance. Beasley's loss is 2,000, upon which there is no inloss is 2,000, upon which there is no in-

Mr. J. C. McGraw, of Harper's Ferry, has qualified as administrator of his father, the late James McGraw, in a bond to the amount of \$200,000. The estate is estimated at \$165,000. This is probably the largest bond for personal estate ever accepted in this county.— Farmer's Advocate.

The railroad which is proposed to build from Addison to Centralia will be about twenty miles in length. It will follow the Elk river in the main, and will pass through valuable timber forests and coal fields. The road will connect at Addison, where the Webster Salt Springs are, with the W. Va. & P. railway system. It is said the road will be completed by next fall.

The town of Pickens, Randolph

The town of Pickens, Randolph county, has already a population of 200. The large mills are in active operation. The large mills are in active operation. An industry for the manufacture of cigar boxes is running in connection with the lumber plant, and is proving quite an enterprise. Three stores, two good hotels, a barber shop, a news stand, a large town hall, a restaurant and other indications of a rapid growth are to be seen.—Webster Echo.

Last week, as a would-be groom was going home, he lost his marriage license, but did hot notice his loss until be got but did hot notice his loss until be got to the home of his bride to be. Reach-ing in his inside pocket for the license, he found it missing, and, riding back, discovered it being devoured by a large log in the middle of the highway. A chase of half a mile released the license, but the porker had left his marks, hay-ing cuts at type, pieces, out of it—Moring enten three pieces out of it .- Mor gantown Post.

Mrs. Rose Fleming, of Fairment, whose daughter was killed by a stone rolling off the hill above the South Side, Pittsburgh, and crushing her head as she sat in a seat on a moving train on she sat in a seat on a moving train on the Pan-Handle a couple of years ago, brought suit against the company and gained it in the county court, but the supreme court, sitting at Pittsburgh the other day, handed down an opinion reversing the finding of the lower court.

—Morgantown Dominion.

A case of smallpox made its appearance at Bridgoport, Harrison county, the first of the week. The victim of the disease is Miss Goodie, daughter of John C. Johnson. Miss Johnson, with several of her friends, returned from the world's fair last week and she is supposed to have contracted the disease. supposed to have contracted the dis-case there. Mr. Johnson's house has been quarantined and the members of the family with several other persons have been vaccinated. The precautions that are being taken will doubtless prevent further progress of the contagious disease.

Last Friday while a number of men were attaching the pipe running to Weston from the Big Isaac gas well, to the main line near the well, the pipe in which they were making a bend broke under the heavy pressure of the gas. A man named Williams was struck by the strong current of gas and hurled against the regulator building. There was a fire near the building and the gas was ignited by this. Williams was severely burned on the back and hips and very severely injured but may recover. The flames communicated with the regulator building and it was entirely destroyed.

The Buckhannon Delta says: An attempt to break jail was made one night last week, but was frustrated by officers Post and Hunter. For some time the officers have suspected that George Wright would attempt to break jail. Their suspicions first being directed to him by Charles Ferrell and two young him by Charles Ferrell and two young men, who occupy an adjoining cell to him. They agreed to give an alarm, should they learn of anything of im-portance. Last Thursday night the alarm was heard, and the officers going to the jail, found smoke pouring out of Wright's cell. Upon going inside, it was found that he had attempted to burn a hole through the floor, under his bed, and then dig his way out, but was frustrated in the manner described.

was frustrated in the manner described. There is a man named McMillan, an inmate of the Weston insane asylum, who is a peculiar fellow. He is an imbecile of very ordinary appearance, but is endowed with a most remarkable memory. He can begin with Washington and narrate almost every historic circumstance attending the life and death of every President down to Cleveland. He enters into the minutest details, and is a veritable encyclopedia of information, so far as biographical history is concerned. By the aid of his rare faculty he repeats the most lengthy marriage ceremony line for line as it is laid down in the books, and recites the masterpieces of the great poets without a single error or omis recites the masterpieces of the great

The shipping of West Virginia coke to the sliver mining regions of Mexico makes a new and important export industry for this country. "In the reduc-tion of silver ores," says the Baltimore News, "coal cannot be employed to ad-vantage, since the gases generated by its combustion injure the quality of the product. The ideal fuel for smelting product. The ideal fuel for smelting purposes is one that gives a fierce heat and emits no gases. These requirements are most satisfactorily met by coke, and since there are no coking coals in Mexico the miners there are forced to look to foreign countries for their supply. England for a long time enjoyed a virtual monopoly of this trade, but during the contract of the contract o tual monopoly of this trade, but during recent years Alabama has entered the field and has sent to Mexico and the Central American states large quantities of coke. The Alabama grades of coke are distinctly inferior, however, to those of West Virginia, and there is every reason to believe that the coke exporting industry will develop into one porting industry will develop into one of the leading features of our shipping Irade. Ex-Senator Henry G. Davis and his associates, who have founded the new industry, were the pioneers in opening up the great coal deposits of West Virginfa, Others have followed in their footsteps, and the state is now taking a high rank among the coal and coke producers. An incalculable wealth of coal still remains unexplored, how-

of coal still remains unexplored

ever, and when the virgin coal fields

shall have been fully developed West Virginia will, no doubt, enjoy the largest coal trade of any state in the Union."

Mrs. Roach, residing some few miles back of Raven Rock, in this county, was seriously burned one day last week. She was engaged in washing out doors when by some means her dress caught fire. There was no one present to extinguish the flames, and sho ran to a neighbor's, about a quarter of a mile distant. By the time she reached there her clothing was all burned off, and her back and hands were burned in a horri-ble manner. Dr. Watson, of this place, attended her. Her recovery is doubtful,-St. Mary's Oracle.

SOCIAL REFORM.

ome Pertineut Remarks on an Important Question-The Work to Be Done in Wheeling-Who Will Assist In It? To the Editor of the Intelligencer.

Sin: - On entering your city on Thursday last, for the purpose of enguging in Christian work for the uplifting of the fallen of both sexes, my

attention was naturally drawn to the magnitude of the work to be done.
On Friday the INTELLIGENCER was placed in my haud, containing the article on The Social Evil. The article in question deserves the honest attention of every thinking philanthropist, and points out facts which show the necesary direction for genuine remedial

agency.

There are two things essential to this agency.

There are two things essential to this the series of the

and learn what they need to know.
The complaint in the article mentioned that "Christians are not Christ like" is evidently true of that class of sentimentalists who for the sake of show or vain glory, have undertaken, without the spirit of Christ, this work. Of course these are not Christians but be-long to that class of whom Christ said: "Many will say unto me in that day, Lord, Lord, have we not prophesied in thy name? and in thy name done many wonderful works? And then will I profess unto them, I never knew you, depart from me, ye that work iniquity." Matt. 7:22-3.

But there are Christians who have But there are Christians who have the spirit of love for lost men who will gladly engage in this work. It is a fact that much of the social evil can be prevented, were there a place in this city where the young girls who court infamy upon the streets at night might find a loving heart to welcome and an aninyable home with separating to do enjoyable home with something to do that is profitable. But the only persons who can successfully undertake in such a home are those who know that Jesus Christ has power to save from lust those who come unto Him. It is not true that the lowest and most aban-doned cannot be permanently reformed. It is not true that when they are, re-portable records will not require them. apectable people will not receive them. Only let the reformation be along gespel lines and every respectable person who is worthy of the name, will welcome and help them on. Some of the most respectable men are reformed drunkards and libertines. Some of the most honored and respected women of our land teeday are reformed prostiour land to-day are reformed prosti-tutes, I mean in Christian society. It takes a large heart to be prodigal. It takes a loving heart to reach them. But where the love of God is there are the workers for this battlefield.

the workers for this battlefield.

But there is a part of this world that must be inaugurated by the wealthy. An industrial home where men and women, directed by Christians, may find a variety of employment that will pay their way and not interfere with the wage earner. A home where the happy medium between idleness and drudgery, captures and holds those whom we seek to reach. The wealthy are of necessity deprived of many of the "means of grace," which poorer people have, but must find blessing in the "means of grace," which poorer people have, but must find blessing in
benificence. Give to your city an industrial home for the unemployed of
both soxes, with facilities to make it
self-supporting and I will furnish the
working force of men and women of
God, who shall do the rest. The religion
of Jesus Christ has not lost its power
over those who submit to its terms. over those who submit to its terms. over those who submit to its terms.

Loving hearts are not wanting who will
gladly gather the outcasts and offer
them a place in the kingdom of God.

But somewhere, there must be a home
where they are given a Christian welcome till their way is open in the world.

We are sending missionaries to the
beathen and that is right, but is it to

heathen, and that is right, but is it to the interest of the kind hearted people to see the work at home neglected? Another phase of the work is along the much neglected lines of instruction. What does it advantage the careful mother whose daughter's virtue is so jealously guarded, but whose son is turned out upon the streets to gain his education in social purity from the boys and girls who throng the thoroughfares

the people who are able to do something substantial in this matter rally to the rescue "for God and home and native land?"

In Christian love for lost souls,

M. L. Schooley.

Wheeling, W. Va., Nov. 20.

A Famous Salt Declded. Washington, D. C., Nov. 20.—The long pending litigation between Herrmann Sturn, of Indianapolis, and Ferdinand Boker, and others of New York, arising out of a shipment of arms to Mexico in 1867 in aid of Maximillian's care, was decided by the United States. cause, was decided by the United States supreme court to-day, though the end is not yet, for the court reversed the decision of Judge Gresham in the circuit court and sent it back with directions as to how the accounting should be made. The amount involved is \$238,000.

How to Tell a Good Whiskey.

How many people can tell a good whiskey from an inferior one? Can you? If you can, then you already know the merits of Klein's Silver Age, Duquesne and Bear Creek Ryes, and if Duquesne and Bear Creek Ryes, and if you cannot, then you must be governed by the testimonials of physicians, superintendents of hospitals and connoisseurs, who all unite in declaring that the whiskies bottled by Max Klein of Allegheny, Pa., are absolutely pure, old and mellow. A reliable stimulant in the house at this time of the year is an absolute necessity, and why not get the best in the country? Send for catalogue best in the country? Send for catalogue of liquors to Max Klein, Allegheny, l'a These whiskies are for sale by Wheel

ing Drug Co, at regular prices
